

## List of Surge Suppressor Manufacturers

- AC Data Systems - Manufactures modular transient voltage surge suppression (TVSS) devices.
- Advance Surge Suppressor - Manufacture transient surge suppressors, protectors, arrestors and power line conditioners.
- Advanced Electronics - Manufacturer of surge protection for industrial, commercial and residential electrical services.
- Advanced Lightning Technology - Manufacturers of grounding and lightning protection equipment.
- Atlantic Scientific - Industrial surge protection and suppressors for wireless, tvss, networks, home, load centers.
- Automatic Lightning Protection - Lightning rods and information. Do it yourself lightning protection.
- Circuit Components Inc. - Manufacturer of industrial grade line filtering, surge suppression, and surge protection devices for incoming power services, field and control room equipment.
- Citel - Manufacturer of surge protection equipment suppressors for AC power lines, datacom and telephone equipment. Surge arrestor gas tubes protect against lightning surges and electrical transients.
- Comm-Omni International - Lightning and transient surge protection products, filters and technical information including grounding. Free applications consulting.
- Delta Lighting Arrestors - Some good information on lightning arrestors.
- Ditek Corp. - Manufacturing surge protectors with online catalog and shopping cart.
- Eclipse Professional Technical Systems - A major designer, manufacturer and consulting expert in the field of TVSS (transient voltage surge suppression).
- Electronic Specialists, Inc. - Manufactures protectors and interference filters for computers, modems, video, audio and industrial equipment.
- General Telecom, Inc. - Manufacturer of grounding equipment and wire screen partitions for the telecommunications industry.
- Harger Lightning Protection - Full line supplier of lightning protection and grounding equipment for the communications and electrical industries.
- Heary Brothers - Engineers, designers and manufacturers of lightning protection systems for buildings, factories and homes worldwide.
- Innovative Technology, Inc. - Manufacturer of transient voltage surge suppression equipment.
- Intermatic, Inc. - Offering surge protection equipment.
- ITW Linx - Power and lightning modular surge protectors for telecom, data and AC equipment. Product specifications, articles related to surge protection, and list of distributors. Manufacturer of power and lightning surge protectors, plus engineering and manufacturing of custom, modular surge protectors for AC, telecom, data and wireless applications.

- Keeg International - Multidimensional company specializing in electronic manufacturing, lightning protection, power management and power supplies.
- Kumwell Lightning Technology - Manufactures lightning protection, grounding systems, exothermic welding, electrical connections and grounding.
- LEA International - Manufacturer of surge suppressors for commercial, industrial, broadcasting and medical imaging applications. Searchable product database with PDF datasheets and representative contact information.
- Lightning Experts - Provides static, surge and lightning protection for towers and high voltage applications.
- Lightning Prevention Systems, Inc. - Manufactures and installs static dissipation systems: grounding, surge protectors and site inspections. Also provides lightning protection for homes, buildings, towers, factories, petro facilities and boats, and educational lightning.
- Lightning Protectors & Accessories, Inc. - Manufactures gas-tube and quarter-wave coaxial surge arrestors, RF splitters for ISM and UNII wireless LAN, PCS, MMDS and cellular.
- Lightning Rod Parts - Offers lightning protection equipment, surge arrestor and rods for self-installation.
- Lightning Technologies, Inc. - Provides lightning protection design, engineering and testing for advanced electrical, electronic and structural systems and facilities.
- Maida Development Company - Manufacturer of zinc oxide varistors, multi-layer varistors, PTC and NTC thermistors, and ceramic disk capacitors.
- Meter-Treater, Inc. - Manufacturer of surge protective devices and meter-based surge suppressors for residential, commercial applications as well as for signal, data and telephone interfaces.
- MTL Surge Technologies - Manufacturer of industrial surge protection for networks, wireless, tvss and home entertainment.
- Northern Technologies, Inc. - Manufactures and offers surge protection and UPS devices for AC and DC, coaxial, telco and dataline electronic equipment.
- Panamax - Designer and manufacturer of electronic and electrical protection, filtration and control products.
- PowerTech - Distributor of transient voltage surge suppression products with information on products, warranty and contacts.
- Psytronics, Inc. - Specialist in transient voltage surge suppressors, surge protectors and uninterruptible power supplies.
- Sankosha Corporation - Manufacturer of gas discharge tubes for surge protection with an online catalog of these protectors.
- Sollatek - Manufacturer of surge, lightning and voltage protection.
- Stormin Protection Products Inc. - Surge suppression equipment and information.
- SurgeX - Powerline surge suppressors, 110 and 220 V service models up to 20 amps.
- Tesco-Online - Manufactures surge and lightning protection equipment for protection for A/C power and communication systems.
- Transtector Systems - Manufacturer of surge protectors. Product datasheets in PDF.

- Tytwadd - Manufactures secondary surge and lightning arrestors.
- United Power - Surge suppression for electrical panels from 240 single phase to 480 three phase.
- Volt Guard - Volt Guard has developed over 200 models of surge suppressors and surge protection equipment.
- Wallis Technologies - Manufacturer of surge protection for all IT and electronic equipment.
- Zero Surge - Manufacturer of surge suppression equipment.
