

ADVANTAGES OF ELECTRIC LIVING

- ***It's Designed For Year-Round Livability:*** Featuring style, cleanliness, safety, convenience and economy.
- ***It's So Simple:*** Just make one electrical connection – one source of energy – electric power. It does everything.
- ***Electrically Heated Home Living Is Clean:*** Nothing is being burned; no flames, no smoke, no soot. No combustion air is required for electric cooking or comfort condition equipment. Compact, modern, easy-to-clean design makes cleaning easier and faster.
- ***Electrically Heated Home Living Is Safe:*** In addition to the physical comforts and convenience, no other energy system offers the worry-free dependability of electricity. It's the peace-of-mind way to heat and power any home. You will sleep better at night without worrying about leaks, spills, burns, odors, or fuel deliveries or shortages.
- ***Electrically Heated Home Living Is Convenient:*** It possesses all the necessities and luxuries found in the most expensive homes.
 - ***Heating:*** Just set it and forget it. No burners or chimneys to clean, and no flame in the entire home.
 - ***Fuel:*** Buy from one utility company and receive a special rate.
- ***Everything Works So Easily:*** Just flick a switch and electricity goes to work for you. Electric servants are available for recreation, indoors and out.
